

EDUCATION

- UC San Diego: PhD in Economics, May 2017
- University of Tokyo: Masters in Public Policy, Apr 2012
- UC Berkeley: BEng in Industrial Engineering, Dec 2007

EMPLOYMENT

Research Scientist	Fiscalnote	2019-Present
---------------------------	-------------------	---------------------

- Contributed analysis script in Python and R to research projects.

Data Science Associate	Pew Research Center	2017 - 2019
-------------------------------	----------------------------	--------------------

Data Labs

- Led a team of 4 in a research project from the initial idea generation to the design of back-end infrastructure and data analysis. Trained and deployed a neural network model to more than 100K images using Transfer Learning. Python/R/Django/AWS/Docker
- Conceptualized and developed a geodatabase that allows researchers to study how attitudes of survey respondents overlay with geographic components.
- Authored and coauthored blog posts that aim to introduce data science/programming to social scientists
<https://medium.com/pew-research-center-decoded>
- Collaborated with subject teams to develop joint research projects.
- Organized and presented in Brownbag to introduce data science to Center-wide audience to complement their survey work.

Fellow	Data Science for Social Good	2016
---------------	-------------------------------------	-------------

- Built a machine learning prediction model to identify key risk factors of interacting with the juvenile criminal justice system for the Milwaukee public schools.
- Contributed to end-to-end data pipeline that is comprised of ETL, model training, validation, deployment and inference. Model performs 87% better than the baseline in identifying students at risk. Python/SQL/Command Line Tools

Teaching Assistant	UC San Diego	2012 - 2017
---------------------------	---------------------	--------------------

- Served as a teaching assistant for 11 undergraduate courses, primarily on introductory and intermediate microeconomics sequences

Analyst	BlackRock	2008-2010
----------------	------------------	------------------

Solutions Center

- Supported external users of BlackRock's risk management software enterprise system. Specific tasks included writing SQL queries to identify trades that were booked, provided software training to external users.
- Worked with Relationship Management group to support sales and implementation for clients

Engineering Intern	Intel	2006
---------------------------	--------------	-------------

Manufacturing Engineering Group

- Developed metrics to measure equipment and factory capacity and output, identified run rate improvement projects, established accident prevention measures and planned training programs for personnel

RESEARCH

Reports

- **Gender and Jobs in Online Image Search, May, 2019** (with Stefan Wojcik, Brian Broderick and Adam Hughes)
Covered by: Adweek, Forbes, PCMag, Nieman Lab, Multichannel News

- **Men Appear Twice as Often as Women in News Photos on Facebook**, *Dec, 2018* (with Stefan Wojcik, Brian Broderick and Adam Hughes) Covered by: CNN, MarketWatch, The Washington Post, USA Today, Mother Jones, Mercury News, East Bay Times

Academic Papers

- **Advertisers Capture: Evidence from Hong Kong** (Under Review) Covered By: Marginal Revolution
 - Initiate and finish project from beginning to end
 - Code in R to construct a measure of political polarization on the newspaper articles
 - Code in python to scrape news articles, clean and extract useful information, run multinomial logistic regressions to estimate and calculate the financial loss that a pro-Democracy newspaper suffered
- **Measuring Subjectivity in History Textbooks** (R&R) Covered By: BBC
 - Write Python scripts to clean the text, count adjectives, calculate the ratio of positive to negative words and employ word embedding (word2vec)
- **Political Shifts and Public Responses to Agency Action**, (with Michael Livermore, Vlad Eidelman)

Conferences and Invited Talks

- **2019**: APSA, AAPOR, ICA, IC2S2, World Bank, JP Morgan Chase Institute
- **2018**: APSA, APSA Computational Social Science Pre-Conference
- **2016**: Tobin Project

OTHER PROJECTS AND EXPERIENCES

Creator of Jicount.com **2019-**

- Built a web platform that allows researchers to upload important milestones of their papers.

Quantitative Researcher **UC San Diego** **Dec 2016-Apr 2017**

- Built a machine learning prediction model to identify factors leading to academic success using data from local high schools

Statistical Consultant **Wisers** **Jan 2017-Feb 2017**

- Guided the construction of a social media sentiment index on political candidates in Hong Kong

Instructor and Organizer **UC San Diego** **Nov 2016**

- Taught two machine learning workshops to economics PhD students that covered basic concepts and different classification algorithm, and application using sklearn

LANGUAGES AND SKILLS

- Programming: Python, R, SQL, Django, AWS, Docker, Spark
- Data Science: Machine Learning, Deep Learning, Machine Vision, Natural Language Processing
- Language English, Chinese, Japanese.
